

Week 1 - Motivation

By Urdimbre Escritura,

Inspirado desde academicmuse.org

An invitation to connect to, and motivate our work via:

- dream or imagine where do we aim to be**
- Look back and be proud with our path**

Dream

*Build an image of
who you want to be
in 5 years*

My ideal life, 5 years from now

(~ 15 mins)

How would days be? The routine?

What have I researched? What am I writing about?

What am I working on?

How does my working place looks like?

Whom am I talking with? With whom do I spend my time?

What will I do on my free time? ¿Hobbies?

The past lives in the present

*Look at your
achievements. Growth
and gratitude for our
current research work*

(~ 15 mins)

What are you good at in research? In writing?

Where have you improved?

What progress have you made?

Are you happy about things you have achieved? Which ones?

Whom have you met?

Final Thoughts
